4. Abandoned Firearms

During the event firearms will be required to be abandoned during a course of fire. Firearms will be abandoned in the place and manner required in the stage briefing. As a general rule, if a firearm is abandoned and the competitor advances downrange of the muzzle either by choice or stage requirement that weapon must be abandoned in a completely empty condition. Any firearm abandoned in a position where movement downrange is not required or chosen by the competitor may be abandoned in a "safe" condition, with applicable manual safety or safeties engaged. Note that stage descriptions may require completely unloading a firearm in a situation where the shooter does not advance downrange to meet other safety considerations. In all cases firearms must be abandoned per stage descriptions and all firearms must be completely empty if the shooter chooses to advance downrange of the muzzle.

5. Match Disqualification

The match director will have the final decision on any and all disqualifications.

6. Firearms

All firearms used by competitors shall be serviceable and safe.

If a competitor's firearm becomes unserviceable during competition, that competitor may replace his/her firearm with another as approved by the Match Director or his designee.
